

Ashley
Art 385
Due: 17 March 2020

Assignment:

Utilizing coding for a ESP32 and LED, complex functionality will be explored.

Schematic:

Reflection:

In between spring break, traveling, lack of knowledge on hardware, and the chaos of schooling and housing going remote sitting down to solidly work on and understand this assignment has been tough. The idea of what I wanted to do was easy but coding and wiring the breadboard was hard.
